Subject: Microsoft Settlement

Dear Attornet Hesse Once again I urge you to bring the full force of the Justice Department to effect a positive ruling on the settlement reached between Microsoft and the Federal and State Governments. This attack against one of the most successful enterprises in our country s proud history has gone on much too long drained unestimal resources from needed government activities and severely damaged our nation s economy. Please please bring it to an end now. Bill Gates is no crook but Joel Klein and Janet Reno certainly need close attention. Regards Sumner Kibbe
